

Client Onboarding System

First AI Agent Prompt:

Can you generate a warm and professional welcome email for a new client based on the following details?

Name: {{ \$json.Name }}

Email: {{ \$json.Email }}

Company Industry: {{ \$json['Company Industry'] }}

Goals for the Partnership: {{ \$json['What do you want to achieve with us in 5 years?'] }}

Make sure to always end the email with the following sign-off:

Best regards,
Bob Bob
VP of Internal Relations
ABC Corp

Do not use placeholders like [Your Name] or [Your Contact Information] under any circumstances.

Return the result in 3 separate fields:

Subject: The email's subject line

Body: The main email content

Email: {{ \$json.Email }}

Second AI Agent Instructions:

Use the client details below to generate a clear summary of their profile. Here are the details:

Name:

Company Industry:

Goals with Us: What they are hoping to achieve through our partnership

Return the following fields separately:

Name:

Email:

Summary: A concise overview of the client based on the information provided
